TRAFFIC CONTROL DEVICE REGULATIONS

The Commissioner, on the recommendation of the Minister, under section 349 of the *Motor Vehicles Act*, R.S.N.W.T. 1988,c.M-16, and every enabling power, makes the annexed *Traffic Control Device Regulations*.

Manual of Uniform Traffic Control Devices for Canada

1. Traffic control devices, including signs and markings to identify the boundaries of a community safety zone, must be designed in accordance with the most recent edition of the Manual of Uniform Traffic Control Devices for Canada, as amended from time to time, issued by the Transportation Association of Canada.

Official Languages

2. Despite section 1, a traffic control device may use or include words in any Official Language that express the meaning of the words provided for in the Manual of Uniform Traffic Control Devices for Canada adopted under section 1.

Saving

3. A traffic control device designed in accordance with a previous edition of the Uniform Traffic Control Devices for Canada remains valid if it was placed or erected

- (a) while that edition was in force; or
- (b) within a reasonable time after that edition ceases to be in force.

4. A traffic control device that was placed or erected before the coming into force of these regulations or within a reasonable time after the coming into force of these regulations remains valid.

Coming into force

5. These regulations come into force on December 31, 2018.
